- Packing list.
- Copy of the passport.
- Copy of the valid visa / diplomatic card / confirmation of employment (to be issued by the client's organization in the country of destination)
- Power of attorney (to be issued by the client's organization in the country of destination)
- Valued inventory in English or Russian.

Notes on the valued inventory:

- Valued inventory lists are purely for customs purposes and therefore the value does not have to be the same as used for insurance purposes. However, it is strictly advised not to enclose the list used for insurance purposes along with the shipping documents.
- Separate valued inventory lists should contain very clear description of each individual item. Such descriptions are very important because it helps the local customs authorities to determine the import duty which differs from item to item. Therefore, in order to minimize the customs duty on consumable items we suggest to under declare the value for such items for customs purposes only. Home electrical and electronic appliances should be very clearly mentioned along with their serial numbers.
- Please find hereunder an example of the needed information on a valued inventory list:

item	value	Net weight	Gross weight	pieces
dishes	30 USD	5.20 kg	5.40 kg	10

5/ HELPFUL TIPS

- Once the shipment is booked please send the signed order for service to our **Antwerp HQ at krisc@gosselingroup.eu** (attn. Mr Kris Corten). Please send us also the copies of the waybill, packing list, valued inventories and shipping schedule well in advance so we can double check and make corrections prior to shipping. This will save you extra storage and demurrage charges at the destination. We strongly recommend you not to send anything before we checked the documents and contacted the client.
- Mark the waybills very clearly “Used Household goods and personal effects”.
- The packing list should be in English and/or Russian.
- Do not attach the inventory list used for the insurance purposes to the documents enclosed with the shipment. This in order to avoid heavy customs duties and taxes upon the shipment’s arrival.
- The under declared valued inventory for customs purposes should be attached to the documents accompanying the shipment.
- Such items as books, CD’s, audio and videotapes should not be mentioned separately on the packing list. However, if it is necessary to include these items on the packing list, make sure to list the name of the author, year of publication and the topic of each item separately..
